

PRODUCT GUIDE

Roofing, Waterproofing & Dampproofing

Roofing, Waterproofing & Dampproofing

Roofing Repair Mastics & Cements

Perfectseal Roof Cement

Use on asphalt roofs, concrete and metal roofs, shingles, general purpose use on exterior of buildings and structures

- General purpose roof repair cement
- Heavy trowel consistency
- Excellent resistance to flow on vertical surfaces
- 5-gallon

Flashing Cement

Use on asphalt roofs, concrete and, metal roofs, shingles, general purpose use on exterior of buildings and structures

- Smooth trowel consistency
- Excellent general purpose repair cement
- Adheres to vertical & horizontal surfaces

Rubberized elastomeric flashing cement

- 10.1 oz. caulk tubes, 1-gallon, 3-gallon, 5-gallon

Ultra Rubberized Wet/Dry 19 Flashing Cement

- Stops leaks on wet or dry surfaces, emergency repair
- Smooth trowel consistency
- 10.1 oz. caulk tubes, 1-gallon, 3-gallon, 5-gallon

Use on asphalt roofs, concrete and, metal roofs, shingles, general purpose use on exterior of buildings and structures.

AR-Elastomeric/Trowel Grade

Use on asphalt BUR, APP & SBS membrane roofs, concrete, metal, spray urethane foam roofs, masonry, stone and wood

- Maintenance & repair of asphalt, concrete, metal, foam roofs
- Use to seal pitch pans, gravel stops, gutters, problem areas
- Superior protection in ponding areas
- 30 oz. caulk tubes, 1-gallon, 3-gallon, 5-gallon
- **ASTM &** FM CRRC Miami **Specifications Dade** D-4586 Type I Class I

502MS Karna-Flex

Use on metal, TPO, PVC, Hypalon, EPDM, Concrete, spray foam and asphalt (black only) roof surfaces

Thermoplastic rubber SEBS sealant - White, Black Gray Ideal for patch & repair even in ponding areas

- Flexible, durable, weather-resistant and UV stable
- 30 oz. caulk tubes, 1-gallon, 3-gallon

CRRC **ASTM &** UL FM Miami **Specifications** Dade

505MS Karna-Flex WB

Use on metal, TPO, PVC, Hypalon, EPDM, Concrete, spray foam and asphalt roof surfaces

- Elastomeric acrylic sealant
- Use to patch & repair
- Flexible, durable, weather-resistant & UV stable
- 10 oz. caulk tubes, 1-gallon, 3.5-gallon, 5-gallon

UL ASTM & FM CRRC Miami Dade **Specifications**

670HS Karna-Sil Ultra

Use directly on spray polyurethane foam roofing or over 180 Karna-Sil Epoxy Primer or applicable 400 series base coat over metal, asphalt, TPO, PVC, Hypalon and EPDM roofs

- White, single-component, high solids, moisture cure silicone roof coating
- Excellent weather and water resistance cured film resists degrading, chalking under harsh UV exposure
- Coverage: one coat applied over 180 Karna-Sil Epoxy Primer or specified 400 series base coat at the rate of 1.5 gallons per 100 sq. ft. (23 dry mils) up to 3 gallons per 100 sq. ft. (46 dry mils)
- 5-gallon, 50-gallon

Asphalt Roof Coatings

71 Fibered Asphalt Roof Coating

Use on smooth BUR, APP and SBS modified membranes, metal roofs and roll roofing

- Protects asphalt roofs from hot sun & winter weather
- Fills in hairline cracks & bare spots on asphalt roofs
- Coverage: 4 gallons per 100 sq. ft.
- 1-gallon, 5-gallon, 55-gallon

ASTM & UL FM CRRC
Specifications
D-4479 Type I
SS-A-694D

Non-Fibered Emulsion Roof Coating

Use on asphalt BUR, APP & SBS modified bitumen membranes, metal and wood

- Adds additional asphalt protection to cover worn roof areas
- Prepares roof for reflective coating applications
- Coverage: 2-3 gallons per 100 sq. ft.
- 5-gallon, 55-gallon, 275-gallon

ASTM & UL FM CRRC Miami Specifications
D-1187 Type II, D-1227 Type II
Class I, SS-R-1787 (AF)

107 Velvet Roof Coating

Use on smooth surface BUR, APP and SBS modified bitumen membrane roofs

- · Non-fibered asphalt roof coating
- Adds a layer of asphalt protection to weathered roofs
- Coverage: 1-2 gallons per 100 sq. ft.
- 5-gallon, 55-gallon

Roofing, Waterproofing & Dampproofing

Reflective Roof Coatings - Aluminum Coatings

Perfectseal Fibered Aluminum 27 Roof Coating

Use on smooth BUR, APP & SBS modified bitumen membranes, metal

- Good reflectivity for protecting the underlying roof surface
- · Fibered for longer service life • Coverage: 1-1.5 gallons per 100 sq. ft.
- 5-gallon

Perfectseal Non-Fibered 28 Aluminum Roof Coating

Use on smooth BUR, APP & SBS modified bitumen membranes, metal

- Good reflectivity for protecting the underlying roof surface
- Good for use as a re-coat over existing aluminum coated roof
- Coverage: 0.5-1 gallon per 100 sq. ft.
- 5-gallon

Fibered Aluminum **97 Roof Coating**

Use on smooth BUR, APP & SBS modified bitumen membranes, metal roofs

- Fibered aluminum for heavy duty service • Extends the life of asphalt and modified
- bitumen membranes
- Coverage: 1-1.5 gallon per 100 sq. ft.
- 1-gallon, 5-gallon

ASTM & UL CRRC Miami **Specifications** Dade D-2824 Type III, D-3805 TT-C-498C(AF) D-962 Type II

Fibered Aluminum 98 Roof Coating

Use on smooth BUR, APP & SBS modified bitumen membranes, metal roo

- Highest leafing aluminum concentration for superior reflectivity and service life
- Extends the life of asphalt and modified bitumen membranes
- Coverage: 1-1.5 gallons per 100 sq. ft.
- 5-gallon

Miami ASTM & FΜ CRRC **Specifications** Dade D-2824 Type III, D-3805 TT-C-498C(AF) D-962 Type II

Non-Fibered Aluminum 169 Roof Coating

Use on smooth BUR, APP & SBS modified bitumen membranes, metal

- Non-fibered aluminum for smooth asphalt roof surfaces
- Extends the life of asphalt and modified bitumen membranes
- Coverage: 0.5-1 gallon per 100 sq. ft.
- 1-gallon, 5-gallon

ASTM & UL CRRC Miami FΜ **Specifications** Dade D-2824 Type I, D-3805 TT-C-498C(AF)

D-962 Type II

Alumin-R Rubberized 298 Aluminum Roof Coating

Use on smooth BUR, APP & SBS modified bitumen membranes, metal roofs

- · Elastomeric, rubberized for longer service life
- Greater resistance to ponding water
- Coverage: 1.5-2 gallons per 100 sq. ft.
- 3-gallon, 5-gallon

ASTM & UL FΜ CRRC Miami **Specifications** Dade D-2824 Type III D-962 Type II D-3805

(Except Solvent-Based)

Roofing, Waterproofing & Dampproofing

Reflective Roof Coatings - White Coatings (Other colors available)

Elasto-Brite

Use over any of our 400 series base coats or over prepared smooth BUR, APP & SBS modified bitumen membranes and concrete, metal and spray polyurethane foam roofs

 Premium, 100% acrylic polymer, elastomeric coating
• Superior reflectivity and elongation for the protection of
the underlying roof surface

ASTM & NSF UL **CRRC** Miami **Specifications** Dade D-6083

- Coverage: Apply over 400 series base coat at 1.5 gallons per 100 sq. ft.
- 5-gallon, 55-gallon, 275-gallon

RC-W Elasto-Kote (502 Base & 502 Finish)

Use on metal roofs, spray polyurethane foam roofs, EPDM, TPO, PVC roofs, concrete, stucco and wood structural surfaces.

Highly elastic, SEBS thermoplastic rubber roof coating
I ow nermeability provides excellent water blister

- resistance
- Coverage: Apply 502 Base first at the rate of 1.5 gallons per 100 sq. ft. then 502 Finish at 1.5 gallons per 100 sq. ft.

ASTM &	NSF	UL	FM	CRRC	Miami
Specifications					Dade

• 5-gallon, 55-gallon

505HS Mohave Coat

Use over any of our 400 series base coats or over prepared smooth BUR, APP & SBS modified bitumen membranes and concrete, metal and spray polyurethane foam roofs

- Premium, high-solids, 100% acrylic polymer, elastomeric coating
- Superior reflectivity and elongation for the protection of the underlying roof surface
- Coverage: Apply over 400 series base coat at 1.5 gallons per 100 sq. ft.
- 5-gallon, 55-gallon, 275-gallon

CRRC **ASTM &** UL FM Miami

Specifications Dade D-6083

529 Renu-White

Use over any of our 400 series base coats or over prepared smooth BUR, APP & SBS modified bitumen membranes and metal roofs as well as above grade concrete, concrete block, brick, stucco and wood.

- Reflective, co-polymer acrylic roof coating Excellent choice for re-coating existing acrylic coated
- Coverage: Apply over 400 series base coat at 1.5 gallons
- per 100 sq. ft.
- 5-gallon, 55-gallon, 275-gallon

UL FM CRRC Miami Dade

ASTM & **Specifications**

Roofing, Waterproofing & Dampproofing

Acrylic Base Coats

Corrosion Proof Base Coat

Use over properly prepared metal roofs

 Self-priming acrylic base coat with light gray indicator color, provides superior adhesion to metal

ASTM & UL FM CRRC Miami **Specifications** Dade

- Stops the formation of rust and corrosion
- Coverage: 1.5 gallons per 100 sq. ft.
- 5-gallon, 55-gallon, 275-gallon

405 Bond-N-Shield Base Coat

Use over properly prepared, low-slope asphalt roofs

- · Self-priming acrylic base coat with light blue indicator color, provides superior adhesion to asphalt surfaces
- Prevents asphalt bleed-thru and improves blister resistance in ponding areas
- Coverage: 1.5 gallons per 100 sq. ft.
- 5-gallon, 55-gallon, 275-gallon

ASTM & FΜ CRRC Miami **Dade Specifications**

406 Tru-Grip Base Coat

Use over properly prepared TPO, PVC, Hypalon and EPDM single-ply membrane roofs

- Self-priming acrylic base coat with marine green indicator color, provides superior adhesion to substrate
- Blocks plasticizer migration for coating durability, improves blister resistance in ponding areas
- Coverage: 1.5 gallons per 100 sq. ft.
- 5-gallon, 55-gallon, 275-gallon

ASTM & UL FM CRRC Miami **Specifications** Dade

407 EPDM & SPF Base Coat

Use on properly prepared EPDM & Spray Polyurethane Foam roof and concrete surfaces

- Self-priming acrylic base coat with light pink indicator color, provides superior adhesion to substrate
- Promotes coating durability and improves blister resistance
- Coverage: 1.5 gallons per 100 sq. ft.
- 5-gallon, 55-gallon, 275-gallon

ASTM & Ш FM CRRC Miami **Specifications Dade**

Adhesives

Double Coverage Cement/Lap

Use to adhere cap sheet roll roofing membranes

16 Cement

Cold-applied adhesive for asphalt cap sheets and roll roofing

66 Modified Bitumen Adhesive

- Use as a as blind nailing/lap cement
- Coverage: 2-3 gallons per 100 sq. ft.

ASTM & FM CRRC UL Miami **Specifications** Dade D-3019 Type III

• 1-gallon, 5-gallon, 55-gallon

Trowel

Use to adhere SBS modified bitumen membranes, base and ply sheets as well as to adhere conventional BUR ply sheets or fully granulated cap sheets

- SBS cold-applied modified bitumen adhesive, eliminates the need for torches and kettles
- Tough, flexible, adhesive and cohesive bond
- Coverage: 1-2 gallons per 100 sq. ft.
- 5-gallon

ASTM & FΜ CRRC Miami **Specifications** Dade

D-3019 Type III

Roofing, Waterproofing & Dampproofing

81 Modified Bitumen Adhesive

- Specification-grade SBS cold-applied modified bitumen adhesive, eliminates need for torches and kettles
- Superior flexibility for strong adhesive and cohesive bonding
- Coverage: 1-2 gallons per 100 sq. ft.
- 5-gallon

Use to adhere SBS modified bitumen membranes, base and ply sheets as well as to adhere conventional BUR ply sheets or fully granulated cap sheets

ASTM &	UL	FM	CRRC	Miami
Specifications				Dade
D-3019 Type III	•	•		•

Resaturants

Asphalt Roof Resaturant

- · Rejuvenates old gravel asphalt roofs
- Protects roof from the UV rays of the sun and keeps gravel in place
- · Coverage: 7-8 gallons per 100 sq. ft. followed by new, clean gravel
- 5-gallon, 55-gallon

Use on asphalt BUR gravel roofs

ASTM & Specifications UL

CRRC Miami

Dade

Primers

Sta-Tack Primer

- Water-based & guick drying
- Excellent coverage-1 gallon covers 500 sq. ft.
- Improves adhesion of membrane and performance
- 1-gallon, 5-gallon

Use as a primer for self-adhering membranes for roofing or waterproofing

ASTM & Specifications CRRC

Miami

Dade

100 Non-Fibered Emulsion Primer

- Ideal for priming substrates prior to installing torch-applied modified membranes
- · Water-based asphalt, safe to use, will not flash or burn in the liquid state
- Coverage: 1-2 gallons per 100 sq. ft.
- 5-gallon, 55-gallon, 275-gallon

Use as a general-purpose primer on concrete, gypsum, masonry, brick, metal and asphalt surfaces over which waterproofing, dampproofing, roof coatings, membranes or other asphaltic products are to be applied

ASTM & Specifications

D-1187 Type II, D-1227 Type III Class I, SS-R-1781(AF)

MIL-R-3472A

102 Asphalt Primer

- General purpose asphalt primer
- Provides a thick, firm base to promote better adhesion of asphalt adhesives and coatings
- Coverage: 0.5-1 gallon per 100 sq. ft.
- 5-gallon, 55-gallon

Use on masonry, brick, concrete block, metal, gypsum and asphalt

ASTM & Specifications FΜ

CRRC Miami **Dade**

Roofing, Waterproofing & Dampproofing

108 Asphalt Primer (D-41)

Use on concrete, CMU block, gypsum, masonry, brick, metal and asphalt

- General purpose primer for roofing, dampproofing & waterproofing
- · Revitalizes old asphalt roofing felts and surfaces prior to sealing and coating, quick drying
- Coverage: 0.5-1 gallon per 100 sq. ft.
- 14-oz. spray cans, 5-gallon, 55-gallon

ASTM & Specifications D-41 SS-A-701

UL FM CRRC Miami Dade

507 SPC Primer/Wash

Use to prepare EPDM roofing membranes for sealing and coating

- · Cleans and prepares EPDM surfaces, a must for long-lasting coating applications
- Water-based, efficient cleaner apply for 20 minutes then wash off
- Coverage: 0.20 gallon per 100 sq. ft. (500 sq. ft. per gallon)
- 1-gallon, 5-gallon

ASTM &	UL	FM	CRRC	Miami
Specifications				Dade

702 K-Prep

Use on weathered Kynar coated metal roof panels

- Improves adhesion of coatings
- Improves blister resistance
- Coverage: 0.5 gallon per 100 sq. ft.
- 5-gallon, 55-gallon

ASTM & UL FΜ CRRC Miami **Specifications** Dade

Dampproofing

83 Fibered Dampproofing

Use on masonry and concrete exterior surfaces below grade as well as general protective coating for wood, steel, brick

- Fibered, cutback asphalt dampproofing
- Cold-applied coating that forms a durable, flexible membrane
- · Coverage: 4 gallons per 100 sq. ft.
- 5-gallon, 55-gallon

ASTM & CRRC **Specifications**

D-4479 Type I SS-A-694D(AF)

MIL-R-3472A

86 Fibered Trowel Mastic

Use on masonry and concrete exterior surfaces below grade as well as or general repair on wood, steel, brick prior to applying dampproof

- · Fibered, cutback asphalt dampproofing • Ideal for making repairs to retaining walls, bridge
- abutments and steel panels before applying dampproof
- Coverage: 5-6 gallons per 100 sq. ft.
- 5-gallon

coatings

ASTM & CRRC Miami **Specifications** Dade D-4586 Type I SS-A-153 Type 1(AF)

Non-Fibered Emulsion 100 Dampproofing

- General purpose cavity wall dampproof coating
- · Protects against dampness
- Coverage: 2-3 gallons per 100 sq. ft.
- 5-gallon, 55-gallon, 275-gallon

Use on concrete, masonry, metal and wood above or below grade as well as an adhesive for polystryrene insulation in cavity wall or on foundation wall

UL **ASTM &** FΜ CRRC Miami **Specifications** Dade D-1187 Type II, D-1227 Type III Class I, SS-R-1781(AF)

Miami

Dade

Roofing, Waterproofing & Dampproofing

Fibered Emulsion 220 Dampproofing

- · Acts as vapor retarder in cavity wall construction
- · Protects concrete, metal and wood above- or below-grade
- Coverage: 4-6 gallons per 100 sq. ft.
- 5-gallon, 55-gallon, 275-gallon

Use on concrete, masonry, metal and wood above or below grade as well as an adhesive for polystryrene insulation in cavity wall or on foundation wall

ASTM &

MIL-R-3472A

UL FΜ CRRC Miami **Specifications** Dade D-1187 Type I & II, D-1227 Type II Class I, SS-R-1781(AF)

920 Fibered Emulsion Mastic

- Trowel-applied version of 220
- Vapor retarder for above- or below-grade construction
- Coverage: 4-6 gallons per 100 sq. ft.
- 5-gallon, 55-gallon

Use on concrete, masonry, metal and wood above or below grade as well as an adhesive for polystryrene insulation in cavity wall or on foundation wall

ASTM & Specifications

D-1187 Type I, D-1227

Type II Class I, SS-R-1781(AF)

MII -R-3472A

Waterproofing

Rubberized Waterproofing

- · Spray-applied, rubberized below-grade waterproofing for masonry surfaces.
- · Excellent upgrade to waterproofing for foundation walls
- Coverage: 4 gallons per 100 sq. ft.

Use on masonry and concrete exterior surfaces below grade and interior cavity wall surfaces above grade as well as for general protective coating for wood, spray foam, steel brick and stone.

UL

ASTM & **Specifications** D-4479 Type I

FΜ CRRC Miami Dade

CRRC Miami

• 5-gallon, 55-gallon

AR-Elastomeric

- Commercial-grade waterproofing protection
- Highly elastomeric, polymer modifed asphalt that forms a seamless membrane
- Brush, trowel or spray grades
- 5-gallon, 55-gallon

Use on masonry and concrete exterior surfaces below grade or above grade as well as for general protective coating for wood, spray foam, steel brick and stone

ASTM & Specifications D-4479 Type I D-4586 Type I

UL CRRC Miami Dade

Air Barriers

K-NRG Seal VP

- Liquid-applied & elastomeric
- Vapor permeable air & water barrier
- Passes NFPA 285 Fire Test
- 5-gallon, 55-gallon

Use over exterior gypsum board, OSB, plywood, cementitious board, CMU, concrete, stone, wood, metal and more

ASTM & UL CRRC Miami **Specifications** Dade

323 K-NRG Gap Seal FR

- Single-component, water-based elastomeric acrylic
- Seals gaps and transitions prior to air barrier coating application
- Passes NFPA 285 Fire Test
- 3.5-gallon, 55-gallon

Use over exterior gypsum board, OSB, plywood, cementitious board, CMU, concrete, stone, wood, metal and more

ASTM & UL CRRC Miami **Specifications Dade**

Reinforcing Fabrics & Tapes

Fiberglass Membrane

Use to reinforce mastics, sealants and coatings

- Woven entirely of fiberglass yarn and resin coated for use with asphalt, coal tar coatings and acrylic sealants
- Ideal for use with cold applied cements and coatings
- Designed to reinforce roofing and waterproofing repairs and applications as well as air barrier sealants
- Widths of 4", 6", 9", 12", 18", 36" x 150' rolls

FΜ CRRC Miami **Specifications** Dade D-1668 Type III HH-C466B

Asphalt Cotton Fabric

Use to reinforce asphalt flashing cements, mastics and coatings

- Asphalt coated for increased bond of cements & coatings
- Lightweight, unrolls easily
- Open mesh allows cements & coatings to form a strong mechanical bond
- Widths of 4", 6", 9", 12", 18", 36" x 150' rolls

ASTM &	UL	FM	CRRC	Miami
Specifications				Dade

3036 Poly-Mat

Use to reinforce coatings and sealants over smooth surfaces

Specifications

Specifications

- · Firm finish, stitch-bonded polyester
- High tensile strength for increased toughness
- Lightweight and easy to handle, won't rot or decay
- Widths of 4", 6", 9", 12", 18", 40" x 180' rolls
- **ASTM &** UL CRRC Miami FΜ **Specifications Dade**

5540 Resat-Mat

Use to reinforce coatings and sealants over smooth or irregular surfaces

- · Soft finish, stitch-bonded polyester
- . Conforms to shape of roof, lightweight & easy to handle
- Excellent tensile strength & high breaking elongation
- Widths of 4", 6" x 300' and 40" x 324' rolls

ASTM & UL CRRC Miami **Specifications** Dade

550 Patch-N-Go

Use to seal seams & flashings and for making repairs on EPDM, Hypalon, PVC, TPO, Metal and over a number of other building materials

- Self-adhering repair tapes
- Seals and waterproofs
- Available in White, Black, Fleece
- Widths of 4", 6" x 65.5' rolls

- **ASTM &** CRRC Miami
- Use to seal seams & flashings and for making repairs on EPDM, Hypalon,

Karna-Bond 560

- Self-adhering repair tapes with highly adhesive micro-sealant rubber
- Seals and waterproofs
- Available in White, Black, Fleece
- Widths of 4", 6" x 50' rolls length depending on model

Roofing, Waterproofing & Dampproofing

Miscellaneous

45 Sky Kote

Use to seal fiberglass & polycarbonate skylight panels and glass transit windows

- · Clear, acrylic coating for sealing hairline cracks to stop water infiltration
- **ASTM &** UL FM CRRC **Specifications**

- Dries clear to allow light through
- · Coverage:1-2 gallons per 100 sq. ft.
- 1-gallon, 5-gallon

105 Tac-Kote

Use to prepare surfaces for subsequent asphalt-based paving application

- Primer/adhesive for under asphalt-based roadways
- Binds and seals dusty surfaces for subsequent toppings
- · Coverage: 1-1.5 gallons per 100 sq. ft.
- 5-gallon, 55-gallon

2% Neo Asphalt 230 (Trowel Grade)

Use to adhere paving blocks and pressed asphalt bricks to concrete or macadam (blacktop) surfaces

- · Cold-applied, rubberized asphalt adhesive eliminates shifting and buckling of pavers
- Installs over new/existing concrete/macadam
- Coverage: 1.5-2 gallons per 100 sq. ft.
- 5-gallon

ASTM & UL CRRC Miami **Specifications Dade**

2% Neo Asphalt 237 (Brush Grade)

Use to adhere paving blocks and pressed asphalt bricks to concrete or macadam (blacktop) surfaces

- Cold-applied, rubberized asphalt adhesive eliminates shifting and buckling of pavers
- Installs over new/existing concrete/macadam
- · Coverage: 1.5-2 gallons per 100 sq. ft.
- 5-gallon

ASTM & UL CRRC Miami **Specifications Dade**

Karna-Klean

Use as a paint, asphalt & tar remover for cleaning

- Concentrated citric-based solvent with pleasant orange scent

D-3409 SS-C-153 Type I(AF)

502MS Karna-Flex Caulk

- White, SEBS thermoplastic rubber sealant
- Seal metal screws and gutters and problem areas even in ponding areas
- Coverage: 75 lineal feet per tube per ¼" by ¼" bead
- 30 oz. caulk tubes

Use on metal, TPO, PVC, Hypalon, EPDM, concrete and spray foam roof surfaces

ASTM & UL FΜ CRRC Miami **Specifications** Dade

AR-Elastocaulk

- · Black, SBS rubberized asphaltic sealant
- Seal metal screws, gutters, pitch pans, gravel stops and problem areas even in ponding areas
- Coverage: 75 lineal feet per tube per ¼" by ¼" bead
- 30 oz. caulk tubes

Use on asphalt BUR, APP & SBS membrane roofs, concrete, metal, spray urethane foam roofs, masonry, stone and wood

CRRC ASTM & Ш FΜ Miami **Specifications** Dade D-4586 Type I Class I D-4479 Type I

44 Klear-Seal

Use on wood, drywall, plaster, brick, concrete, masonry, tile and metal surfaces above grade

- Terpolymer acrylic caulk that dries clear with outstanding flexibility and adhesion, paintable
- Seal around windows, doors, trim, molding, metal and for general-purpose use
- Coverage: 25 lineal feet per tube per ¼" by ¼" bead
- 10.1 oz. caulk tubes

ASTM & **Specifications** C-834

UL FΜ CRRC Miami Dade

323 K-NRG Gap Seal FR Caulk

CMU, concrete, stone, wood, metal and more

- Single-component, water-based elastomeric acrylic
- · Seals gaps and transitions prior to air barrier coating application
- Passes NFPA 285 Fire Test
- 30 oz. caulk tube

Use over exterior gypsum board, OSB, plywood, cementitious board,

ASTM & UL CRRC Miami FΜ **Specifications** Dade

505MS Karna-Flex WB Caulk

Use on metal, TPO, PVC, Hypalon, EPDM, Concrete, spray foam and asphalt roof surfaces

- Elastomeric acrylic sealant · Use to seal flashings, curbs, metal roof seams, fasteners,
- gutters and other general repairs
- Flexible, durable, weather-resistant & UV stable
- Coverage: 25 lineal feet per tube per ¼" by ¼" bead
- 10.1 oz. caulk tubes

ASTM & UL FΜ **CRRC** Miami **Specifications** Dade

Application Temperature Recommendations

PRODUCT TYPE	PRODUCT EXAMPLES	STORAGE TEMPERATURE (Store indoors in dry environment)	APPLICATION TEMPERATURES (Includes the substrate, product and ambient temperature*)	SERVICE/PERFORMANCE TEMPERATURES
Acrylics (Except 405 Bond-N-Shield and 529 Renu-White)	400 Series Base Coats 500 Series Finish Coats 505MS Karna-Flex WB	50°F to 90°F	40°F to 120°F	-15°F to 180°F
Acrylic - Exceptions	529 Renu-White 405 Bond-N-Shield	50°F to 90°F	40°F to 120°F	15°F to 180°F
Silicone	670HS Karna-Sil	50°F to 90°F	50°F to 120°F	-15°F to 185°F
SEBS & SBS	502 RC-W Elasto-Kote 502MS Karna-Flex 229AR Elastomeric	50°F to 90°F	40°F to 140°F	-40°F to 180°F
Aluminum	97 Fibered Aluminum 169 Non-Fibered AL 298 Alumin-R	50°F to 90°F	50°F to 120°F	15°F to 180°F (298 Alumin-R 40°F to 180°F)
Asphalt Cements, Coatings, Adhesives & Primers	19 Flashing Cement 19 Ultra Rub. Flashing Cement 71 Fib. Asphalt Coating 108 Asphalt Primer 66 Mod. Bit. Adhesive 83 Fibered Dampproofing 86 Fibered Trowel Mastic	50°F to 90°F	40°F to 120°F	15°F to 180°F
Asphalt Emulsions	100 Non-Fibered / 100 Primer 220 Fibered 920 Fibered Emulsion Mastic	50°F to 90°F	40°F to 120°F	15°F to 180°F
Epoxy Primer	180	50°F to 90°F	40°F to 120°F	-15°F to 180°F
Water-Based Polymer Modified Primer	89 Sta-Tak	50°F to 90°F	30°F to 120°F	15°F to 180°F

NOTE: Application at temperatures lower than 40° F will become difficult due to the increase in viscosity that occurs when the product's temperature is lowered. Application of products at or below freezing temperatures could result in adhesive failure, unless special precautions are taken to ensure that the surface is free of moisture or ice crystals.

^{*} Apply all products at ambient air temperature 5°F above dew point unless applicable for use over wet surfaces.

Spray Tip Information & Recommendations

Product	Tip Size Range	Working Pressure	Hose ID Tested*	Recommended Overspray During Application
16	.049053	4000	1/2"	
27	.039043	1500	1/2"	20%
28	.023027	1500	1/2"	20 70
71	.049053	4000	1/2"	
83 Spray	.049053	4000	1/2"

406	.023027	1800	1/2"	30%
407	.023027	1800	1/2"	30%
501	.035045	1800	1/2"	30%
502 ES	.029033	3300	1/2"	
502	.029033	2300	1/2"	
529	.035045	1800	1/2"	30%
670HS	.030035	3500	3/4"	
670LS	.030035	3500	3/4"	

Products applied using a Graco GH 833 Airless Sprayer and 1/2" diameter hose, unless otherwise noted. Contact spray equipment manufacturer for more complete information.

Better to increase tip size first before increasing pressure to eliminate overspray.
